SEATTLE PACIFIC COLLEGE

HISTORY

Seattle Pacific College is the outgrowth of Seattle Seminary which began its work as a preparatory school in March, 1893. The Seminary was made possible largely through the generosity of two Seattle men, N. B. Peterson, who gave the original campus, and H. H. Pease, who furnished much of the means for the erection of the first buildings. In 1910 classes of College grade were organized and, in recognition of the advanced work, the Trustees, in March, 1915, changed the name to Seattle Pacific College.

The College is incorporated under the laws of the State of Washington and is the property of the Free Methodist Church. It is co-educational and non-sectarian. The twelve Trustees are elected by the Washington, the Oregon, and the Columbia River Conferences.

LOCATION

The College is located in the beautiful City of Seattle, the metropolis of the Northwest. The city is surrounded by the magnificent scenery of Puget Sound. The climate is equable and pleasant. Seattle is the most healthy city of its size in the world. It constitutes an ideal environment in which to live while pursuing an education.

On reaching Seattle students should take the Rainier Valley car line on Fourth Avenue and transfer to the Nickerson Street car of the municipal line at Third Avenue and Pine Street and get off at Third Avenue West. The College is one block south. Reduced rates on transportation of baggage from the depots to the College may be obtained by bringing trunk checks to the College office.

ernment. They appoint monitors to keep order during the recitation periods and the noon hour, and deal with infractions of proper conduct.

RELIGIOUS LIFE

The College always emphasizes the importance of a definite religious experience. The promoters believe that the training of the intellect is not the sole function of an educational institution. They believe in experimental and practical Christianity. They recognize the importance of heart culture as the fundamental principle upon which any system of true education must rest.

The Bible has a prominent place in the instructions of the school. Family worship is conducted each morning and evening in the dining room. Devotional exercises are held each morning in the Assembly Hall. A religious service conducted by the president of the school is held on Tuesday evening in the College chapel. A students' prayer meeting in one of the recitation rooms is held on school days at 8:00 A. M. and a number of prayer bands meet at 4:00 P. M. for personal service. Special religious services of several weeks' duration are held during the year.

SOCIAL LIFE

One cannot well escape being in society. It is part of an education to learn to conduct one's self correctly in the presence of others. Christian courtesy is most essential to the success of the Christian worker and is attractive and desirable in every walk of life. A mere formal etiquette may be cold, but one who has not learned correct manners is but partially educated.

In order to aid in the formation of correct poise, frequent talks are given on proper behavior in the various situations in which one may be placed. Social evenings are held occasionally under the care of the faculty. These gatherings are marked by all the proprieties of such events and are exceedingly helpful in forming proper social habits and in creating a free and pleasant social atmosphere.

DRESS

The College does not prescribe a uniform dress. Its influence, however, will be exerted in favor of plain and economical attire. In the interest of modesty and simplicity students are requested to refrain from the wearing of jewelry while in school. College life does not call for display and good taste disapproves it.

ABSENCES FROM COLLEGE

It is the aim of the College to make the students thoroughly at home and to prevent in every way any dissipation of their interest in study. To this end the earnest co-operation of parents and guardians is solicited. Students should be sent promptly at the beginning of the term, and after they have entered they should not be removed even for a day. Because of their distracting influences, social or week-end visits are discouraged. Frequent absences from study, no matter for what purpose, make progress impossible.

STUDENT AFFAIRS

THE ASSOCIATED STUDENTS is an organization composed of all the students of the College and Academic departments, the Seventh and Eighth grades, and the members of the Faculty. This organization, under the supervision of the President and Faculty, has control of general student affairs, such as rhetorical, missionary work, athletics, the business management of The Cascade, inter-collegiate debates, and oratorical contests.

THE CASCADE is a magazine published and printed by the Associated Students of the school. The regular subscription price is 75 cents for the school year.

ATHLETICS

The College does not participate in inter-collegiate athletic contests because such contests have generally proved detrimental to the true interests of education. But

the College does recognize the great value of physical exercise and arrangements are made for the organization of classes in physical training. Every student is urged to take part in athletics and is constantly helped in keeping himself in good physical condition.

BOARDING DEPARTMENT

This department is under the direction of the instructor in Home Economics. The kind and amount of food and the method of cooking best suited to the health of the students is provided. The students are trained in dining-room service and etiquette. A quiet, cultured and home-like atmosphere characterizes the department. Students from abroad are required to board in the institution. Proper care of the health and social training make it advisable for students to room and board on the College campus.

ASSIGNMENT OF ROOMS

Old students have the preference in the assignment of rooms in the order of classes. New students are assigned to rooms in the order of application. Where it is desired, the President will give special attention to the selection of room-mates, so as to meet the wishes of parents in this important matter. Two students occupy each room, but there are a few smaller rooms which may be occupied by one student alone. In such cases an extra charge of \$2.50 to \$5.00 a term is made.

FURNISHINGS

The rooms are furnished with bedstead, mattress and springs, and such other furniture as is necessary for comfort and convenience. All bedding, pillows, rugs and carpets, curtains, and bric-a-brac must be provided by the patrons. Students should bring plenty of bedding and such articles as shall make their rooms tidy and beautiful.

Each student should also bring necessary toilet articles, towels, table napkins, etc.

COLLEGE OF LIBERAL ARTS

The College offers an elective course under certain limitations, extending four years leading to a bachelor's degree, and, in addition two-year courses in Christian Work, Education, Expression and Music, leading to a diploma.

All candidates for admission must present themselves at the office of the President on the registration days as specified in the calendar and submit their credentials for entrance to the College. A matriculation card will be issued to each new student. After consultation with the President the student will register for the courses of study desired for the ensuing semester. Immediately after registering he will present the matriculation and registration cards at the office of the Treasurer and make payment for his tuition and fees.

Candidates for admission without condition must offer at least fifteen units of work in a preparatory school. A unit is defined as the amount of work completed in one academic subject pursued through a year of at least thirty-six weeks, with five recitations per week.

Fifteen units are required for admission.

I. The following nine units are required of all candidates for entrance:

3 units of English.

1 unit of algebra.

1 unit of plane geometry.

2 units in **one** foreign language.

1 unit in **one** of the following: physics, chemistry, botany, zoology.

1 unit in history, or 1/2 unit of U. S. History and 1/2 unit of Civics.

Either Ancient Language (Latin, Greek, etc.) or Modern Language (German, French), may be offered to satisfy the Foreign Language requirement, but at least two must be in the same language, i. e. two units of Latin, etc., or two of German, etc.

II. In addition to the nine units under I., enough units must be offered from the following elective subjects to bring the total up to fifteen.

Latin -----	1 to 2 units
Greek -----	1 to 2 units
German -----	1 to 2 units
French -----	1 to 2 units
Spanish -----	1 to 2 units
Zoology -----	1/2 to 1 unit
Botany -----	1/2 to 1 unit
Chemistry -----	1 unit
Physics -----	1 unit
Physiography -----	1/2 to 1 unit
Physiology -----	1/2 to 1 unit
General Science -----	1/2 to 1 unit
Agriculture -----	1/2 to 1 unit
Astronomy -----	1/2 unit
English -----	1 unit
History, Civics, Economics -----	3 units
Mathematics -----	1/2 to 2 units
Commercial Subjects -----	1/2 to 3 units

Also from 1/2 to 2 units from either Mechanical or Free-hand Drawing, Manual Training or Domestic Science and Art.

A student may be admitted to the College:

1. By presenting a diploma from an accredited preparatory school.
2. By presenting a certificate from a high school whose standard of work is equal to that of the preparatory school of this institution.
3. By transfer of credits from other schools or colleges.
4. By examination.

Accredited Schools: Students from schools accredited by the state university are admitted to the Freshman class without examinations, provided they file with the President a certified list of subjects for which they have received credit in a preparatory school.

Entrance by Certificate: Certificates from principals of other high schools or academies will be accepted when satisfactory evidence is presented that the grade of work in these schools is equal to that done in our own preparatory school.

Mature students, ordinarily only such as are at least twenty-one years of age, may be admitted as special students to courses for which by ability and preparation they may be fitted. Special students are not candidates for a degree.

Advanced Standing: Students coming from other colleges whose requirements are substantially equal to those of this institution may be admitted to advanced standing on credentials signed by the proper officials and giving full specifications concerning the nature of the courses taken, the time spent in each and their rank in each subject.

They are assigned credits on the basis of their credentials but such assignment is provisional until ratified by the committee on credits. Students entitled to such advanced standing should enter not later than September of their Senior year.

If, by examination or by certificate, a student presents more than fifteen units of commended work for admission he may, upon formal application, receive College credit for certain subjects, provided that these subjects or others closely allied, have been continued in College with high grade.

REQUIREMENTS FOR THE DEGREE OF BACHELOR OF ARTS

The College offers the degree of Bachelor of Arts upon the successful completion of the work required according to the group system, but does not grant a degree to non-resident students.

The total requirements for the bachelor's degree is 128 credits. One credit is given for the satisfactory completion of work equivalent to one recitation a week during one semester.

To secure the degree of Bachelor of Arts the candidate must meet the following requirements:

3. ZOOLOGY.—A microscopic study of the Protozoa, continued by a study of representative types of invertebrate and vertebrate animals from the simplest forms to the most complex. Attention is paid to the morphology of each group4 credits
4. Course 3 continued4 credits

5. HUMAN PHYSIOLOGY AND ANATOMY.—

This course takes up somewhat in detail the structure of the human body. While not technical, it aims to give the student such a comprehensive knowledge of the subject as every well-informed person should possess. The subjects of hygiene and sanitation receive considerable attention -----3 credits

6. Course 5 continued -----3 credits

MATHEMATICS.

1. COLLEGE ALGEBRA—Permutations and combinations, mathematical induction, determinants, undetermined coefficients, partial fractions, infinite series and summation of series, elements of the theory of equations. -----4 credits

2. SOLID GEOMETRY.—Study of the Geometry of space including the sphere and volumetric measurements. College credit will be given to those not needing it for college entrance, but it is not to be substituted for any of the required mathematics. -----4 credits

3. TRIGONOMETRY.—This course covers measurements, angles, Trigonometric functions, theory and the use of Logarithms, and Trigonometric curves. -----4 credits

4. ANALYTICS.—A study of the point, right line, ellipse, parabola, hyperbola, their construction and discussion of the equations of the same. -----4 credits

5. CALCULUS—Differentiation of algebraic and elementary transcendental functions. Integration. Application of differentiation including maxima and minima. Partial differentiation. Definite integrals. -----4 credits

6. Course 5 continued. -----4 credits

PHYSICAL SCIENCE.

ASTRONOMY.

1. DESCRIPTIVE ASTRONOMY.—This course is designed to give a general knowledge of the facts of Astronomy, of the methods by which they are obtained and the theories that account for them. -----3 credits

CHEMISTRY.

1. INORGANIC CHEMISTRY.—A systematic study of the elements and their principle compounds, the fundamental law and theories of chemistry -----3 credits

2. Course 1 continued -----3 credits

GEOLOGY.

1. PHYSIOGRAPHY.—A study of the surface features of the earth and their relations to human life and industries. This course deals with subjects that are intermediate between Geology on the one hand, and History, Sociology, Economics, and Biology on the other. -----3 credits

2. PRINCIPLES OF GEOLOGY.—A study of the materials, the agencies and the processes involved in dynamic, structural and historical Geology. -----3 credits

PHYSICS.

1. MECHANICS, SOUND AND LIGHT.—A mathematical study of principles and the development of important formulas. The text is supplemented by laboratory work -----3 credits

2. HEAT, ELECTRICITY AND MAGNETISM.—This course supplements Course 1. -----3 credits

GROUP III, SOCIAL SCIENCES.

EDUCATION.

1. HISTORY OF EDUCATION.—A study of the development of the school as an institution from early Greek and Roman periods to the present time -----3 credits
2. METHODS.—A discussion of those psychological elements which have direct application to teaching problems. A survey of text and observation in the city schools of Seattle. -----2 credits
3. EDUCATIONAL PSYCHOLOGY.—A study of psychology in its relation to the science of education -----2 credits
4. CHILDHOOD.—A discussion of the physical, intellectual, emotional, moral and religious phases of child study. A study of the child in reference to imitation, play, imagination and language. -----2 credits
5. ADOLESCENCE.—The physical, mental and moral development of the student in the secondary school -----2 credits
6. PRINCIPLES OF EDUCATION.—In this course the functions of education are first considered and then the educational bearings of heredity, habit, culture epochs, individual differences, training of senses, memory, imagination, emotions, will, motor activity, moral nature, formal discipline, educational aims and values of social education. -----3 credits
7. SCHOOL LAW.—A study of the State Manual Embracing the School Code of the State of Washington, the State Constitution and leading facts in the history of Washington and the Pacific Northwest. -----2 credits

8. PRACTICE TEACHING. — Experience in class instruction and in school room management under an experienced supervisor-----3 credits
 - 9 Course 8 continued -----3 credits
- Course 7 may be counted in the department of History.

PHILOSOPHY.

1. PRINCIPLES OF PSYCHOLOGY.—A systematic study of the empirical properties of consciousness, theories of the relation of mind to body and the place of psychology among the sciences -----4 credits

COURSE IN EXPRESSION.

This course is intended for platform speakers, teachers and public readers. It is planned to improve the speaking voice and give expression to thought.

The course covers two years and comprises sixty-four semester hours of collegiate work.

Students who have completed a four years' High School course and in addition have fulfilled the requirements of this two years' course of study will be granted a diploma.

COURSE IN MUSIC.

This course is intended for students who have completed the Academic Course, or its equivalent, and have finished at least four grades in voice, piano or organ.

Such students who subsequently continue their work for two years or more with high proficiency and who successfully render a full evening's program with artistic skill may receive a diploma.

ACADEMIC DEPARTMENT.

This department seeks to combine the advantage of the High School and of the Preparatory School. Many students enter High School with no intention of going to college, and often when they have been stimulated to continue their education find the courses taken have failed to prepare them for college entrance. Here we offer liberal substitution for commercial and technical studies, but insist that every course shall include such studies as are necessary for college entrance.

The advantage of taking the preparatory work under the influence of a thoroughly Christian College cannot be too highly estimated. The entire environment, during the early adolescent period when life-habits are forming, cannot be chosen with too great care. In this department earnest effort is made to exert the most helpful physical, moral and spiritual influence upon every student.

ADMISSION.

Admission to this department is granted upon the completion of an amount of work equivalent to that required by the eighth grade of the public schools of Washington as published by the State Board of Education.

Candidates coming from graded schools must present certificates or diplomas, officially signed and showing the amount of work done and the credits gained by each study. Those who have made preparation in ungraded schools, or under private tuition, may be required to pass examinations equal in grade to those required by the State Board of Education.

Applicants not personally known to some member of the Faculty are required to furnish testimonials of good character, and if from other institutions must present certificates of honorable dismission.

GRADUATION.

Fifteen units are required for graduation in any of the regular Academic courses outlined in this catalogue, one unit being the equivalent of five recitations per week for one year in one branch of study.

A student will receive a diploma of graduation, who has fully completed the work in one of the regular courses of study and who, having been regularly promoted to the Senior year, shall receive no mark lower than 70 in any required subject of that year. No diploma will be given for less than one full year's work in the school. An equivalent amount of work done on any part or the whole, of the first three years of a regular course will be accepted, on proper evidence, for work done in the school.

A diploma will not be awarded to a student whose course of study is not fully completed, and whose bills are not fully paid.

As a requirement for graduation, students must have uniformly high standings in deportment, in punctuality and in class work.

It is the purpose of the institution to place a premium on good scholarship and morals, and any one who shows a disposition to become delinquent in these respects will be obliged to sever his relations with the institution.

HOME READINGS.

First and Second Years.

In each semester, 500 pages of outside reading must be read from standard writers of which at least 250 must be other than fiction. Some poetry should be read, at least twenty-five pages.

Third and Fourth Years.

In each semester 750 pages of outside reading must be read as part of the English work and at least one-half of such reading must be poetry or non-fiction.

GERMAN.

1. BEGINNERS COURSE.—Text, Wesselhoeft's Elementary German Grammar, supplemented by other text. Short stories for reading material. Special drill in pronunciation, memorizing and conversation.
2. GRAMMAR AND CLASSICS.—Text, Joynes-Wesselhoeft's German Grammar. German classics for translation, and attention will be given to the application of the principles of German grammar. Drill in memorizing and conversation continued.

HISTORY.

The history courses are largely elective, but it is expected that all who graduate will take American History and Civics.

1. ANCIENT HISTORY.—From the earliest times to the Tenth Century. Emphasis on Greece and Rome. Text, West. Map work and collateral reading.
2. MODERN HISTORY. From the Tenth Century to the present day. Emphasis placed on English History. Text, West. Map and collateral reading.
3. a. AMERICAN HISTORY.—Text, Muzzey. Reference work in the library.
b. CIVICS.—Text, Forman. Discussions and reference work in the library.

LATIN.

1. BEGINNING COURSE.—Text, D'Ooge. This course is intended to lead to a thorough knowledge of the fundamental forms of expression in Latin. Special attention is paid to pronunciation. Daily drill in paradigm work, and frequent reviews. Reading and parsing of five chapters of Caesar.
2. CAESAR.—Text, Walker. Gallic War, Books I-IV. Review of Latin form. Study of Latin idioms. Word study. Prose Composition, taken largely at beginning of the year to prepare student to meet the ordinary difficulties of translation.
3. CICERO.—Text, Allen and Greenough. Three orations against Cataline. Pro Lege Manilia and Pro Archia. Selections from Ovid's Metamorphosis. Reading of Johnson's "Private Life of the Romans."
4. VIRGIL.—Text, Knapp. First six books of Virgil's Aenied. Study of Versification. Figures of Speech and Mythology.

MATHEMATICS

1. ALGEBRA—This course is prepared with special reference to the future needs of the student. Many problems are based upon physical formulas and geometrical ideas. Text, Hawkes, Luby and Touton.
2. PLANE GEOMETRY—A study of plane figures. Suggestive method. Text, Shutts.
3. a. ADVANCED ALGEBRA, including Quadratics, Logarithms, Ratio, Proportion and Variations, Imaginaries, Theory of Quadratic Equations, and the Binomial Theorem. Text, Hawkes, Luby and Touton.
b. SOLID GEOMETRY, including a study of Lines and Planes, Polyhedrons and the Three Round Bodies. Text, Shutts.

PHYSICAL TRAINING

This department includes lectures by the director and other members of the faculty. Owing to the lack of a gymnasium at present, indoor gymnastics are limited to a few corrective exercises. The outdoor athletics include track meets, tennis, basket-ball, handball, volley-ball and other games.

One-fourth unit per semester is allowed and a maximum of one unit may be earned.

SOCIAL SCIENCE

ECONOMICS.—This is a course designed to give the student an insight into some of the economic problems of the day. Besides recitation, debates constitute an important part of the work, and some collateral reading is required. Text, Burch and Nearing.

PSYCHOLOGY.—This course is intended to assist the student in conserving his mental powers. The cultivation of Perception, Imagination, Memory, Thought, Emotion and Will is especially emphasized. Text, Titchener.

NATURAL SCIENCE

1. **GENERAL SCIENCE**—Text, Hessler. This course introduces the student to the general principles of natural science.
2. **BOTANY**—Text, Coulter with reference work in Bergen and other texts. The course in Botany will give reasonable attention to the study of the habits, structure and life operations of plants. The aim of the course is to place the student vitally in touch with plant life in the field.
3. **PHYSIOLOGY**—Text, Jegi. A study of the various physiological processes of the human body. Simple chemical and physical experiments are performed. Emphasis is made on health and daily living.
4. **PHYSICS**—Text, Millikan and Gale. A study is made

DEPARTMENT OF MUSIC

The advantages of a musical education received in a school of music over individual or private instruction are many and important. It is the purpose of this department to offer superior advantages for the study of vocal and instrumental music. A musical training should be based upon and accompanied by a liberal course of education. Music is both a science and an art; the musician should therefore be a person whose mind has been broadened and cultured under the refining influence of general education. Music as a means of culture aside from the purely artistic elements requires scholastic ability for effective work and leads to a generous and helpful use of attainments. Earnest, conscientious effort and high artistic ideals must ever incite the musical ambitions of the successful student. The student who succeeds in music must be a good thinker.

INSTRUMENTAL MUSIC

Instruction will be given to those who wish to take lessons on the piano and organ.

PIANOFORTE

The Pianoforte course is designed to lay a thorough foundation and to prepare for advanced study in the best conservatories. Students desiring to take a regular course will be required to take one or two piano lessons per week and to attend a general class once a week in which Hand Culture, Notation, Blackboard Work, Sight Reading, Rhythm, Ear Training, Memorizing, Scale and Chord Formation, etc., are taught.

Students must be familiar with the underlying principles of music—correct phrasing, staccato and legato touch, rhythm, the ordinary signs used in music and their application before beginning Course 1.

1. **FUNDAMENTALS OF MUSIC**—An introductory course.
2. Course 1 continued.

3. SCALES AND ARPEGGIOS—Technical studies for the development of touch and wrist. Sonatinas, and the easier sonatas from Czerny, Heller, Clement, Kuhlman, Bach and others.
4. Course 3 continued.
5. SCALES AND ARPEGGIOS—Etudes, studies and sonatas by Cramer, Mozart, Bach, Grieg, Mendelssohn, Heller or equivalents.
6. Course 5 continued.
7. SCALES AND ARPEGGIOS—Doring octave studies, preludes and figures by Bach and Mendelssohn, Beethoven sonatas; Mozart concertas; selections from Grieg, Chopin, Schumann and others.
8. Course 7 continued.

Included in the above is a year of Harmony, it being a study of intervals, construction, relation and progression of chords, and harmonization of melodies.

Informal recitals will be given frequently and a public recital at the close of each semester.

ORGAN

Ample facilities for organ instruction and practice are given and courses are offered leading to hymn and choral playing and include harmony and counterpoint.

CHORUS WORK

A Choral Class will be organized at the beginning of the year for the study of Oratorio, sacred Cantata and Choruses. Students of vocal music cannot afford to miss this work. Special attention is given to breathing, expression, sight singing, time beating, choir leading, things in which every good singer must be efficient. The young preachers and Christian workers find this work invaluable to them.

The Choral Class meets once a week. One-half unit per year will be given for this work.

A Public Recital is given each semester.

Tuition, \$1.00 per semester.

SIGHT READING

Classes in sight reading are organized at the beginning of each year and continued throughout the year. This work is required of all regular and special students registered in the vocal course.

The singing classes meet twice a week, and the students who attend regularly and do satisfactory work will receive one-half unit per year. Tuition, \$1.00 per semester.

VOICE CULTURE

In this department special attention is given to a natural and skillful management of the breath and the correct position of the vocal organs in the production of clear, full, resonant tones.

In breath control, tone placing and voice building, only the best and most approved methods are employed. Flexibility and the art of phrasing are developed through the practice of scale and arpeggio passages and solfeggi.

Tuition Rates—Two lessons per week, payable monthly, \$9.00 per month. One lesson per week, \$5.00 per month.

ART

Excellence in art, as in everything else, can be achieved by dint of painstaking labor. Every skilled touch of the artist's brush is the product of unremitting study.

There is no natural appearance which we may not in the course of time be able to appreciate and copy; whether it be the lovely color of flowers, the charming contour of a beautiful child, the opalescent lines of a gleaming shell, or the golden glory of the setting sun.

Students in the Art Department will be instructed through the mediums of oil, water color, china, pastel and crayon. Also instruction will be given in drawing by a system of correct measurements.

A regular course has been outlined in charcoal, pencil-pointing and water colors.

Painting in oil will be given in College Art. Two hours per week for the year in class will entitle the student to one-half unit.

Tuition: Fifty cents per lesson in the Academy course; seventy-five cents per lesson in College Art.

HOME ECONOMICS

It is the purpose of this department to give instruction in the essentials of home keeping. A beginning has been made and classes have been organized in cooking and baking.

Class demonstrations are given monthly, and a public demonstration once during each semester.

Two hours a week for the year in the class and note book work will entitle the student to one-half unit.

A moderate fee is charged to cover the cost of materials.

HOME ACCOUNTING.

Every young man and woman should have some knowledge of accounting and commercial practice. For this purpose a one term course is given consisting of: Personal accounts, a systematic plan of saving and spending money, the budget system for the home, simple methods of keeping family accounts, club, church and society accounts, saving accounts, insurance, investments for the home, and legal points every one should know. An extra charge will be made for this course, and credit given.

EXPRESSION

The department recognizes that expression is an outer result of an inner richness of life. Its purpose is to furnish training that will enable its students to have and give expression to noble thoughts. Attention is given to development of bodily grace, proper breathing and correct tone production.

The student who applies himself diligently may come to possess a well modulated and resonant voice, a distinct articulation, and ease and grace of bearing which in themselves are greatly to be desired.

The proper study of the art of expression will make the family circle, and the social circle more desirable; the business man more successful, the teacher more instructive, and the professional man more impressive. Pleasant tones of voice and agreeable manners gain friends, win confidence, secure custom, inspire pupils, and delight audiences. A combined cultivation of the physical, the mental and the moral powers.

RECITALS—Public recitals are given three times a year.

Tuition: Twelve lessons, once a week, \$5.00. Private lessons, one-half hour, 75 cents.

SCHOOL OF COMMERCIAL SCIENCE.

The School of Commercial Science of Seattle Pacific College offers to ambitious young people a means of making a good living in the training they will receive in dispatch, system, persistency and other character building qualities that make the distinction between persons who get ahead and succeed and those that merely get along or fail.

The aim of the department is to give the greatest amount of practical knowledge along general business lines and to give the advantage of the improvements in business that have been taking place in the past few years.

COURSES OF INSTRUCTION.

There are three distinct courses of instruction in the commercial department. (1) A two-year course leading to the degree of Bachelor of Commercial Science. This course is open to high school graduates or those having had equivalent courses. (2) A Bookkeeping Course. (3) A one-year course in Phonography and Typewriting.

Course leading to degree of

BACHELOR OF COMMERCIAL SCIENCE

The purpose of this course is, primarily, to give those that wish a broader insight into business work an opportunity to take important subjects not listed in the ordinary shorter course.

BOOKKEEPING COURSE.

Diploma Given.

To those who are not able to attend a school long enough to take advantage of the B. C. S. course, we offer a one-year bookkeeping course. This work is conducted on the ACTUAL BUSINESS PLAN, which is the nearest to real work. A large part of the work is giving individual instruction which enables each student to make the best use of his time.

SHORTHAND COURSE.

Diploma Given.

Students in Phonography receive instruction in dictation of all kinds and classes of business letters, such as railroading in all departments, dry goods, furniture, mail orders, printing, hardware, insurance, real estate, law, manufacturing, etc. Special attention is given to typewriting, the student being required to learn the "touch method." Charles Reads in his work on "The Coming Man" says: "A shorthand writer who can typewrite his notes would be safer from poverty than a great Greek Scholar."

Students taking the regular commercial work will receive special training in salesmanship, business efficiency, personality development, character analysis, public speaking and business etiquette. It is the purpose of the training of the school to produce students that can forge to the front and become leaders in their respective lines of work.

GRAMMAR DEPARTMENT.

The department includes all the work usually pursued in the eight grades. The principal and the teachers in charge are Normal graduates and thoroughly trained for the work. Students are given much individual attention and are promoted as rapidly as the subjects are completed. Special attention is given to the formation of those habits and ideals that will inspire the pupils to prepare for lives of great usefulness.

TERMS.

Make all checks, drafts and money orders payable to SEATTLE PACIFIC COLLEGE.

Tuition and fees for one term and board for four weeks shall be paid in advance upon registration. Thereafter board will be payable every four weeks in advance and tuition and fees every term in advance. No one unable to comply with these terms will be permitted to continue in the school. No student will receive any term or semester grades or credits until all bills are paid.

No deduction will be made in tuition and fees for short delays of entrance, nor for withdrawal before the end of the term, be the withdrawal voluntary or otherwise.

Students who remain during the holidays or spring vacations will be charged regular rates for board.

Owing to the fact that the buildings and grounds must be cared for, only three-fourths reduction will be made on board during holidays or for any absence, excepting in case of prolonged illness.

A deduction of 33 1-3 per cent in tuition will be made to children of missionaries and of ministers engaged in the regular work.

REGISTRATION.

If a change in class work is desired, after registration, it may be obtained by vote of faculty and payment of 50 cents for re-registration. If a student withdraws from a class without the consent of the faculty, he will be marked as having failed in that class.

TEXT BOOKS.

Students provide their own books and stationery. The College will order these for students if they desire, and furnish them at publishers' rates. The cost of the books varies with the class, usually from \$2.00 to \$7.00 per year.

PROMOTION AND GRADING.

Reports of standings will be given to the students in the different departments as follows:

1. Grammar department, once in nine weeks.
2. Academic department, at the close of each half-semester.
3. College department, at the close of each semester.

Grading will be indicated hereafter by figures. A standing of 70 is necessary to obtain credit for any study pursued.

The relative rank of a student is determined by the instructor who computes it from the work during the semester and the examinations. In large classes ordinarily the students are ranked in four groups in the order of merit. The first group includes those whose standing is marked 95 or more and should not include more than 10 per cent of the entire class. The second group includes those whose standing is marked from 80 to 94 and should not include more than 50 per cent of the entire class. The third group includes those whose standing is marked from 70 to 79. The fourth group includes those whose standing is below 70, the passing mark.

HONORS.

1. Banner students shall include all those students who have an average class and test standing of 95-100, who have not been absent from their classes, nor from school, nor tardy at assembly.

2. Honor students shall include those who have an average class and test standing of 90-95, who have not more than two absences from class, nor more than three tardy marks at assembly entered against them.

Two days' absence at the beginning of any semester shall count the same as any other two days' absence during that semester.

3. Deportment shall be taken into consideration in determining the standing of students in the above-mentioned classes.

Students who receive a certain number of demerit marks for misconduct in school will not be enrolled among the Banner or Honor students.

4. Students who are absent from their classes more than three times will be conditioned in their work until satisfactory arrangements are made with the teachers.

5. The above arrangements will apply to the students of the seventh and eighth grades, and also to the classes of the academic and college departments.

6. Honor students in all classes for the complete course at graduation will receive the cum laude designation. Banner students will receive the magna cum laude designation.

TO PARENTS AND GUARDIANS.

The discipline of the school is firm but kind, formative rather than punitive. It is directed to the formation of correct habits and right principles.

The work of the school is thorough and practical. The spirit of earnest endeavor and honest pride in one another's success pervades the place. The moral tone of the school is high. The best evidence of these and other advantages of the school is to be found in the loyalty and good opinion of its neighbors, patrons and alumni.

To realize the highest possibilities of the future, it is necessary to have the right start. Not so much the number of years, or the precise course pursued, but the spirit of cheerful and faithful work, the self-control developed, the self denial exercised, the power of steady application acquired—these will decide the real strength of the man or woman of after years.

REGULATIONS.

It was the purpose of the founders of the Seattle Pacific College to offer young people a thorough education under Christian influences. As a Christian college, it aims to develop manly and womanly character and to train the students for lives of effective service.

The institution does not desire the attendance of any students who are not industrious and well disposed or who are too wayward for home restraint. The use of liquor or tobacco is strictly forbidden. To such as are earnest, it affords the advantages of a quiet and orderly community with all the opportunities of study and mental development afforded by any well organized school.

Students are presumed to have regard for the general rules of good manners and good morals; they are expected to be orderly, faithful, respectful and honest

and to render a cheerful compliance with such regulations and requirements as the faculty may, from time to time, find it necessary to make.

We regard the commingling of young men and young women in an educational institution as helpful to both; yet it should be remembered that the demands and proprieties of school life will not permit the same social privileges as might be allowed in a private home. While observing the ordinary usages of politeness, students should refrain from such association with each other as will attract attention. In all these matters high Christian ideals constitute the standards of conduct. The ultimate control in all matters pertaining to the conduct of the students is in the hands of the Faculty, and students not conforming to the ideals of the institution will be dismissed.

WORK FOR STUDENTS.

It is the policy of the institution to encourage those students who find it necessary while in attendance at school to work in order to pay necessary expenses. The college furnishes students a limited number of places for work. Application for these places should be made early. Students are not permitted to work for more than one-third their board. It is understood that those who take these places will continue in the school throughout the year, and if, through any exigency, it becomes necessary to leave, a month's notice must be given. Students who are temporarily absent must provide substitutes to do their work during each absence or pay 25 cents per hour for each hour service neglected.

Under regulations approved by the faculty students may work in the city a limited amount of time outside of school hours. Students who work for part board must be at the college one day before college opens and must remain one day after the regular work of the school closes.
