Identity and
Purpose**

Vision and Mission

The Library is central to the discovery, creation, and sharing of knowledge at the university.

Advancing student and faculty success through:

- access to diverse information resources and educational technology
- instruction in information, technological, and pedagogical competencies
- an inclusive place for reflection scholarship, and creative work
- expertise about our emerging information and technological environment

10,859
study room
reservations

Technology and Faith Unconference

On December 8, 2018, the Library hosted
a day-long series of discussions about
technology and faith

“The library was an important place during my time as a student. I appreciated that I had access to tech that I couldn't purchase on my own. Staff helped with research and finding quality resources. The space was one for getting good work done. When I walk into the library now, I still feel these things.”

Digital Equality Panel

On May 7, 2019, the Library hosted a panel discussion on
Digital Equity and Inclusion in Seattle
